

Petal Signature Cotton® Solids

Our dyed 100% cotton solid fabrics are available in a full spectrum of beautiful colors that complement any sewing project or craft. It's now easier than ever for makers to purchase high-quality solid fabric that coordinates with digitally printed designs available from our global community of talented Spoonflower artists.

Our Research & Development team worked hard to identify RGB hex codes that offer the closest coordination to our dyed Petal Signature Cotton® Solids. From the warmth of Desert Sun to the oceanic depths of Caribbean, this color chart is a design tool that (we hope!) will inspire your new fabric collection. The codes on the color squares can be applied to digital files using programs like Photoshop® and Adobe Illustrator®. We recommend entering the hex codes, not the color dropper when selecting colors within these programs.
